

My Visit to  
**KidsSTOP™**

Brought To You By  
Science Centre Singapore

I am going to visit KidsSTOP™ today.

I can learn all about science and have lots of fun at KidsSTOP™.

I may need to queue up with my family to enter KidsSTOP™. The staff will also scan my tickets before entering.

The staff at KidsSTOP™ will check my hands and mouth with a torch.

staff

Next, they will sanitise my hands.

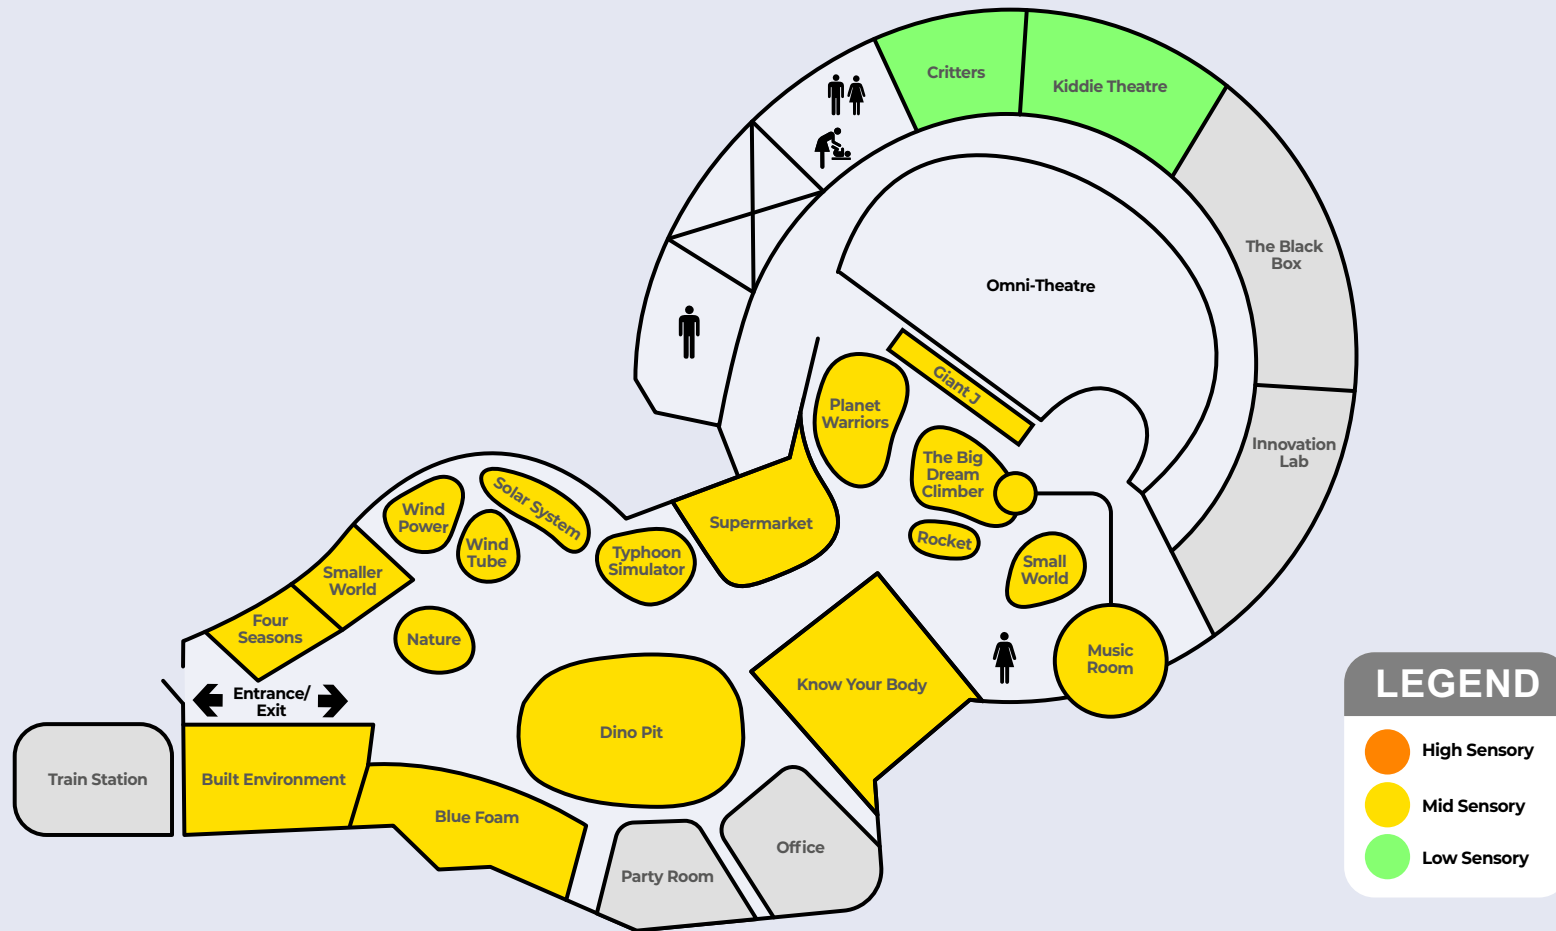

# NOISE LEVELS

Sometimes, it can be noisy and busy at KidsSTOP™.

**I will remember to stay close to my family at all times.**

If I need to have some quiet time, I can let my family know.

KidsSTOP™ staff

The KidsSTOP™ staff can help me if I am lost or have questions. They wear yellow vests.

If I need to use the toilet, I will let my family know.

I am not allowed to eat or drink inside KidsSTOP™. I will let my family know if I am hungry or thirsty.

I can visit many zones in KidsSTOP™. I will need to take turns to play and explore.

This is Built Environment.

I can use the crane and crank to transport balls. I can also move the gears.

This is Dino Pit.

I can dig for dinosaur bones here. The different tools can help me find the dinosaur bones.

This is The Supermarket.

I can learn about healthy eating. I can also go shopping for groceries.

This is Little Ant Kingdom.

I can climb the platforms and explore. I will need to wear grip socks at Little Ant Kingdom.

It is time to say goodbye. I can leave KidsSTOP™ with my family through the exit.

**Thank you!**
